Notes from the Director:

Stardate...March 2012...location-Stone Soup Theatre....the mission...to explore the world of Shakespeare's *The Tempest* with an excited and totally enthusiastic group of young people. Mission accomplished by having you all here to witness and appreciate all the hard work these actors have been doing over the past few weeks in putting this show together.

"With the help of your sweet hands...." we will amaze and impress you and take you to a galaxy far, far away. Clap loud and long, this group of students exceeded my expectations. Enjoy their love of this art that is more than movies, more than Imax, more than Netflix...it is reality...it is my newest, most favorite two words, Collective Imagination.

Thanks again SO much to Kathryn, my AD/Fight Choreographer/ Makeup artist/Light board Op; Molly, my magnificent "other brain" awesome Stage Manager; Carolynne, who does such magic in the office; Savannah for the always fantastic costumes; Arlene and Maureen without whom I wouldn't have a home to direct in that suits me so perfectly; to Scofie the Tremendous, who does it ALL, and as always to my talented family who I am honored shared this experience with me, my stupendous sound and video designer and to Xan and Bea who make home AND rehearsal always worth coming to.

Live long and Prosper!!

--Eve Hammond
